SARSAPARILLA, TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy, and effectual remedy for Scrofulous, Mercurial and Cutaneous Diseases, Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and running Sores, Swelling of the Limbs, Pains in the Bones, Tumors in the throat, Rheumatic affections, Salt Rheum, Erysipelas, bad Humors, Eruptions on the face or body, Cancerous sores, King's Evil, Chronic Catarrh, Languor, Debility, Headache, dizziness, sallow complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is speedy and permanent.

RE-PUBLICATION OF

The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,

AND

Blackwood's Edinburgh Magazine.

The above Periodicals are reprinted in New York immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—BLACKWOOD'S MAGAZINE being an exact fac-simile of the Edinburgh edition.

They embrace the views of the three great parties in England—Tory, Whig and Radical—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Radical. The "North British Review" is more of a religious character, having been originally edited by Dr Chalmers, and now, since his death, being conducted by his son in law, Dr Hanna, associated with Sir David Brewster. Its literary character is of the very highest order.

CLUBBING

Four copies of any or all of the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES

A late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work, by which we shall be able to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers, we pay so large a consideration, that we may be compelled to raise the price of the Magazine. Therefore we repeat, 'subscribe early while the price is low.'

Remittances and communications should be always addressed, post paid or franked, to the publishers,

Movements in England.

The London correspondent of the New York Tribune gives some interesting facts, relative to the movements of the working people and others in London, in demanding of the Ministry to repeal the income tax, or surrender the reins of government. Since the successful movements in France the people in England speak and act boldly.

A public meeting was advertised to be held at Trafalgar square, but it was forbidden by the police authorities as illegal, and the consequence was, a immense gathering of the people, a large addition of police officers, and a conflict, which resulted in all broken countenances and many bruised and smashed heads. Mr. Reynolds, the popular writer, declared upon the terrace of the square that the meeting should be held, and that he would preside. He would draw himself. He delivered a good speech, and was followed by other speakers in praise of the revolution in France. The attempt of the police to disperse the meeting caused the people to make resistance. Railings were torn up and lamps and windows broken. During the next day terrible scenes were enacted between the people and the police; shops were closed, and in several streets windows and lamps were destroyed as the mass moved forward. The lower classes of England, to use an English term, have been so long out of work, have suffered so severely and are now in such a miserable condition, that they are ripe for any demonstration. If they once fully conceive the plan of general movement, and have leaders in whom they can confide, the government will find it very difficult to manage them or keep them quiet.

The temper of the people and the police, as shown in the movements in London, and the scenes which have taken place in Glasgow, Edinburgh, Manchester and other places lead us to look for further demonstrations, and for terrible conflicts. The authorities of England will not be slow to demonstrate their power, and to maintain themselves by force, while deep felt distresses, and the overcharged fears of the future among the people, and the example which France furnishes, will do much to stir up the oppressed masses throughout that Kingdom. Great events are soon to transpire.

☞ Col Haynes, the new Postmaster in this city entered upon his duties on Saturday last. The change, so far, is rather annoying growing out of an entire change in the clerks employed in the office. This is a great mistake that Col. has made, which the saving of a few dollars in the salary of a clerk should not have allowed him to make. His entrance into the office was not sufficiently popular to allow him to experiment with a strong hand upon the patience of the public in a matter of this kind. The back track in this matter is the right, and the restoration of young Butler will restore order and promptness in the office, and confidence with the public.

☞ The Belfast Journal states that a Post Office has been established at North Appleton, in Waldo county, near South's Mills, and is to be known under the name of "Humphrey's Corner Post Office." Joseph Wentworth, Esq., has been appointed Post Master.

☞ The marriage of another volunteer, to a Mexican Senorita, is announced in the Matamoras paper.

☞ The city council yesterday made choice of the following officers to fill vacancies:

H. B. FARNHAM, Marshal
HENRY CALL, Assessor
SPENCER A. PRATT, S. S. Committee.

Railroad Meeting.

At a meeting of the friends of a Railroad from Waterville through Skowhegan, Hartland, Dexter, Levant, and other intermediate towns on the route, to Bangor, held at Dexter the 28th of March, 1848, by adjournment from Levant, the 17th inst., in the absence of the officers of that meeting, Benj. Garland, Esq. of Levant was called to the chair, and John L. Hodsdon of Dexter chosen Secretary.

The meeting was addressed by the Chairman, and several gentlemen from Dexter and other towns on the contemplated route, and unanimity upon the subject which had called them together. And it was unanimously Resolved by the Meeting, that the expediency of the undertaking, and the route and its general practicability have been fully demonstrated, as to the practicability of the route, and a convenient and convenient all of the most valuable water power between Waterville and Bangor, and open to navigable waters, and the market towns on both rivers, one of the most wealthy agricultural regions in the State.

The inclemency of the weather, and almost impassable condition of the roads, having prevented the attendance of a large number of gentlemen who designed to be present, and who are deeply solicitous for the success of the Road, it was voted to adjourn the meeting to Shaw's Corner in Exeter, the first Wednesday in May next, at 10 o'clock, A. M., at which time and place, it is hoped and believed that all the towns on the contemplated route, and in its vicinity will be fully represented, and such an attendance from Bangor, and other portions of the country, be had, as the importance of the subject demands.

BENJ. GARLAND, Chairman.
JOHN L. HODSDON, Secretary.

The Provisional Government of France have sequestrated all the property of the Orleans family. The Siecle, a French paper, says that the act is in direct violation of the law of France, but nevertheless thinks that it is right and proper, and hopes that some measures may be taken to legalise it.

The Ohio Cultivator of the 15th, says that the wheat crop in the middle and northern portions of the State, continues to appear healthy. The dry weather has thus far prevented the "heaving out" so common at this season of the year.

Rev. E. T. Taylor, as universally known as "Father Taylor," has suffered an attack of paralysis, and as we learn from the Zion's Herald, is still lying in a condition which awakens the deep solicitude of his friends.

Upwards of 5000 persons have been admitted to bail, in the Common Pleas Court in New York, within the last 6 months. Most of them have gone through at the expense of the Treasury Committee.

Presidential Election.

To the Editor of the Whig and Courier:

I have noticed in your paper a number of articles, relating to the Presidential election, and recommending different candidates. I have been pleased with your impartiality in admitting them, although no one who has been a constant reader of your paper, can doubt your personal preference under present circumstances, whatever it might be in a different state of things. It may not be good policy to agitate this question at this time, but to wait patiently, until the Whig National Convention shall announce the candidate to be presented for the support of the Whig party. In common cases such a course would be most prudent, as well as just, but in the present instance there are some good reasons which should be generally and clearly understood before the selection is made. It cannot be concealed, that great efforts are now making throughout the country to secure the nomination of General Taylor, and it will not be denied, that thousands of true-hearted Whigs cannot, from principle, support him for the office of President. These men are attached to the Whig party because they believe it to be honest and right, and because they suppose that its leaders not only mean, what they say, but will do what they promise—or in other words, will be consistent in their faith and practice. The writer of this article has had this belief, and will be most sadly disappointed in any of the important principles which are understood to constitute the fundamental principles of the party. Among these it has been considered that no man should be preferred for that high office on account of his military talent and success—and it has been supposed that no Northern Whig would now support a slaveholder, who would not at least withhold his sanction from any further extension of slavery, and use his influence to effect its speedy extinction in our land. A love of peace and hatred of war have been thought to be a portion of the Whig creed, and above all, that as a Party, it could not by thought, word or deed sanction or justify the most abominable and disgraceful of all National contests—the Mexican War. There are other matters of Whig policy, supposed to be too firmly established to be abandoned, and too important to be again encountered, and that for these reasons the Whigs, as a party, would never choose a leader, whose principles were not well defined, and most explicitly understood, and in whose administration they could not rely with perfect safety. There is much cause to fear, that all these rules will be disregarded, and all these safeguards will be abandoned by the friends of General Taylor, at least in their struggle for his election. There is no desire to pluck a single laurel from his brow, or breathe a whisper against his moral purity and private excellence, or even deny him a suitable reward for his distinguished services—but I would again repeat there are thousands of intelligent Whigs, who honestly think they cannot give him their vote for the Presidency without a sacrifice of their principles and consistency, and who on these accounts *will not*. They cannot join the multitude to do this wrong. They would not insist upon having their old favorite Henry Clay for the candidate. There are other good men and true not liable to these exceptions, such as Corwin or McLean, whom they would delight to honor, but they cannot vote for Taylor. They feel the embarrassment in which they may be placed and dread the trial to which they may be called. "That justice that cometh" will be their rule of conduct. It is possible that I may be mistaken with regard to the number of these men, but if there is any faith in past experience, or value in political opinion I think that I am not. Should General Taylor be the candidate of the Whig Convention for the consideration already expressed, they will be impelled to ask, in the language of Webster, so far as it regards the exercise of the right of suffrage, "What is to become of us?"

The doctrine of Expediency may be justifiable when applied to matters of minor importance, but when it strikes at the root of avowed principles, and disregards the only unimportant professions and disappoint the *dearest* promises, it should not be encouraged or sanctioned. In the present case, if adopt it, it may be successful and, if it should be, and Taylor should become President through its instrumentality, what will be the future destiny of the Whig Party? Will it become characterized in the Democratic party? Should it become an easy occasion for the Democratic wings, as it has been known, will it become as popular and as respectable as it now is? Will it preserve its popularity, and stability, or retain its dignity, or, having lost its character for consistency, will the same confidence be placed in its future course and professions? Will it not be dangerous, especially under its own sanction, to make a military man President of the United States, by adding another example of precedent to the proof, that no other but a military candidate can be elected to this office? And if this belief is fastened upon the public mind, will it not have a tendency to create a new inclination for the pursuit of war, and thus hasten the downfall of our free Institutions, and the dissolution of our Republican Government? These are serious questions, and should be seriously answered, and will not some one who may think differently, attempt to satisfy and relieve the anxiety of those who have many fears on these accounts.—They have hitherto gloried in the Whig Party.—They cannot bear to see "the gold become dim and the most fine gold changed." They wish still to serve in the Whig ranks, and dread the necessity of leaving them—and, if true to themselves, can they continue to rally round a standard which will not prove true to the objects for whose achievement it was raised?—Much more might be said on this subject, and I hope it will receive the attention of others who pretend to be the friends of

CONSISTENCY.

Communication.

"A Lover of Truth" has just read the article of "Ballou" in Saturday's Whig. He trusts the editor and no evil design in deferring its publication until the very last day of the present month.

"After such consideration to bestow the theme, he summons courage to say that he perceives no reason to alter the opinion which he has expressed of Mr. George's book. That it is an able and valuable work and so distinguished... a man of such learned and learning in one is more thoroughly persuaded, we opine, than "Ballou" himself. And should Mr. G. commence a suit for the choice things which "Ballou" has pilfered from his book and sermons, to eke out his long reply, the plea of ignorance surely would not avail him!

"A Lover of Truth" declines a further reply. And if any one in this wicked world, moved by a carnal desire, are tempted to ask the reason why, (heaven pardon us for such a waste of our precious pearls!) we can only say that Solomon's maxim (Prov. XXVI, 4.) plainly forbids.—Not even the license granted in the succeeding words (Prov. XXVI, 5.) made with unquestioned reference to cases precisely parallel with this, can alter his present decision.

For the Whig and Courier.

MR. EDITOR:

Perhaps you know Mr. Thomas Hanover, and perhaps you do not, but yourself and most of your readers have seen him often enough, and as in my present writing I have in view the "Public good," as well as a little charity for the unfortunate, you (who always delight in these things) will indulge me, with a small space, to speak of the public good, and the aforesaid Mr. Thomas Hanover. I will be exceedingly brief. Mr. Hanover is the man who sits sometimes near Taylor's Corner, and more recently near the City Hall, and turns this wheel and grinds withal; Mr. Hanover's history is an affecting one, but you cannot allow me to relate it, so I will only say that he was educated an English Cutler, and was fully capable to fabricate and finish fine Cutlery in the most workmanlike manner, and for a few years he carried on the business in some part of the British Provinces, with very good success but alas! Thomas had occasion to make a journey, in winter, on foot through an unsettled part of the country, he was overtaken by a dreadful cold storm of sleet, rain and snow, he travelled until nature sunk down exhausted, and must have perished but for his faithful dog. I cannot enter into particulars, suffice it to say, that the journey cost Mr. H. a year's time, and all his precious savings, amounting to about $1000, the partial loss of both his feet and one hand, so that Thomas the ingenious Cutler, could manufacture no longer, but he can grind most delightfully Razors, Scissors, Penknives, Carving knives, Bread knives, and anything you please. Mr. Hanover has by some means drifted into our good city, and I wish our good citizens both Ladies and Gents, to know that under a yard of Cotton Sheeting as above said Thomas performs all these useful labors, very well and very cheap, and I think I am doing the public some service, by making the fact more generally known. Now for the charitable part. No one I think will doubt, that Thomas has suffered enough by exposure, and most of our kind hearted citizens would like that he should have a good shelter during the rest of his life, but alas, he does not have it, that yard of Cotton is but a poor shelter, from the winter cold, or the summer's heat, and Thomas having a wife and some two or three children to take care of, is under the necessity of being at his post all weathers. Now to bring my communication to a point and a close, Thomas is going to petition the city government to permit him to erect upon some part of the city a vacant land a little light 7 by 9 shanty, for the public good, and his own, subject to be removed at his own expense forthwith whenever he shall be notified so to do, and the petitioner. I hope our good Mayor and Council will readily grant.

Singular Death.

A melancholy death happened at Pamunkey on the Potomac, on Sunday. Francis J. Wood descended to the bottom of the river, clothed in Capt. Taylor's submarine apparatus, to remove a large stone from the bottom of the river. After being down fifteen minutes, and no signal given, he was raised by those in attendance, and found to be dead. He had been submerged in the apparatus many hundred times before, and his death was supposed to be caused by apoplexy. The deceased was a native of Maine.

A SYMPTOM OF THE BAD, like every other disordered motion of the bile... arising to corrupt and stagnant humors which, when rising to the general mass of the circulation are the causes of headache, giddiness, palpitation of the heart and many other unpleasant symptoms; and when thrown upon the various parts of the body are the cause of every malady incident to man. Wright's Indian Vegetable Pills are always certain to remove headache, giddiness, and every complaint, because they completely rid the body of all morbid humors and every thing that is opposed to health.

Wright's Indian Vegetable Pills also aid and improve digestion and therefore give health and vigor to the whole frame, as well as drive disease of every kind from the body.

BEWARE OF COUNTERFEITS AND IMITATIONS.

The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry, in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures of similar name and appearance for the genuine Balsam. Some are called "Syrup of Wild Cherry," "Balsam of Liverwort," "Wild Cherry Compound," &c. Another "Wistar's Balsam of Wild Cherry," misspelling the name, and for no good reason, to resemble the true Balsam. "Dr. Wistar's Balsam of Wild Cherry" is the only genuine. The rest merely imitate the name of the original, while they possess none of its virtues.

LOOK WELL TO THE MARKS OF THE GENUINE.

The genuine Balsam is put up in bottles with the words "Dr. Wistar's Balsam of Wild Cherry, Phil'a," blown in the glass; each bottle bearing a label on the front with the signature of H. WISTAR, M. D.

This will be enveloped hereafter with a new wrapper, copyright secured 1844, on which will always appear the written signature of "I. BUTTS."

None genuine unless signed I. BUTTS on the wrapper.

DR. JAYNE'S ALTERATIVE.

We have been informed by Mrs. Rose of a cure performed on her by DR. JAYNE'S ALTERATIVE which proves its superiority over every other remedy of the kind. She had been afflicted for the last fifteen years with NECROSES or WHITE SWELLINGS, attended with ulceration and exfoliation of various bones, during which time many pieces have been discharged from the frontal bone of the cranium, from both her arms, wrists and hands, and from both legs, and from the left femoral bone and from the right knee, besides painful ulcers on other parts of her person, which has baffled the skill of a number of the most eminent physicians of our city—during most of the time her sufferings have been excruciating and deplorable. About three months since she was induced to try DR. JAYNE'S ALTERATIVE, which has had an astonishingly happy effect upon her, by removing all pain and swellings and causing the ulcers to heal, while at the same time her general health has become completely restored, so that she now weighs some 25 lbs. more than she did before she commenced the use of this truly valuable preparation.—*Saturday Eagle.*

For further information inquire of MRS. ROSE, No. 190 Filbert st., Philadelphia.

WM. TERELL, Corning, N. Y., says, April 14, 1846—I have had occasion to prescribe your ALTERATIVE for a Scrofulous Affection of the Breast, with good effect. It was a case of long standing, and had been considered incurable.

HOOPING COUGH AND CROUP.—TO PARENTS. JAYNE'S EXPECTORANT is, without exception, the most valuable preparation in use for the above diseases; it converts HOOPING COUGH into a mild and tractable disease, and shortens its duration more than one half, and produces a certain and speedy recovery. From half to one teaspoonful will certainly cure the CROUP in infants and young children, in half an hour's time. The lives of hundreds of children will be annually saved by keeping it always on hand ready for every emergency.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superceded (in a great measure) the use of Ether in allaying of pain, and is now used by the best Surgeons and physicians in preference. A celebrated Chemist (and one of the first manufacturers of Chloroform) has discovered that "Chloroform" with other simple ingredients will instantly cure the TOOTHACHE. After testing it in many cases it has never failed to give relief. In no case is it possible that it can do harm—it will not injure the gums and teeth a particle. All that is necessary in using these Drops, is to saturate well a bit of cotton with it and place it in the cavity of the tooth. Relief will be immediate.

None genuine without the signature *T. R. Jones* on the wrapper. Sold at No. 19 Tremont Row. Boston.

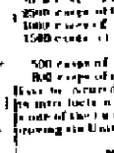
Important to Owners of Horses

Dillow's Celebrated HEAVE CURE!!!



Which has been used with such remarkable success in France and England for the last twenty years and has been for the last two years performing the most wonderful and rare cures ever known in this country. More than

40 Horses

2500 cases of Heaves in Boston and Cattle,
1000 cases of Distemper and Nasal Gleet
1500 cases of Affection of Bronchial Tubes and Lungs,
500 cases of Fever and Broken Wind, and
800 cases of Rheumatism in the hip joint

Have been cured by this wonderful remedy, since it was first introduced in the United States. The following is but a few facts in the history of Dillow's Heave Cure, a part of the hundreds of certificates in our possession, proving its Universal efficacy

New Scotland Albany Co N Y
February 25th, 1846

Messrs Ford & Grant Gentlemen—I have much pleasure to say to you, my certificate for the benefit of those who may have Heaved unmistakenly afflicted

I, hereby certify to the World, of my most horrors in the most aggravated form, which I have been troubled with for the space of three months, which time I have tried various other remedies, but to no effect, until I was induced to purchase one bottle of Dillow's Heave Cure Infection. I have gone on to give it a fair trial, and have entirely removed the disease from my horse, and he is now as well as ever he was. He is now at work on the farm and is a perfect sound condition

JAMES M WILLIAMS.

UNIVERSAL CONDITION MEDICINE

Read the testimony of an eminent Doctor & Farmer

Messrs Ford & Grant Gentlemen—At the request of your Agent in this town I now give my opinion of your celebrated Dillow's Heave Cure. As an *Universal Condition Medicine*, as well as a sure cure for the Heaves and all diseases arising from an affection of the Pulmonary organs and communicating glands and the lungs, and also from its genial and also tonic properties I recommend it as the best medicine extant for the cause of Poor Spirits, Cold Breathing, Dropsy of the Skin and Chest, Fever Pleurisy and Inflammation. Also Humid Inflammation of the Kidneys and Bladder. I also recommend it as a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system. I would call the attention of the horse owning public to the fact that within months of the above Disorders are connected through neglect during the Washing Season or time of changing the hair, which takes place during the most inclement seasons in the whole year at which time, if the horse is exposed and neglected the power of the skin closes up and the circulation of the fluids cease. If left in this condition, Disease in some form, must ensue. It is at this time that I consider your *Inimitable Powder* indispensable, as it operates upon the pores and Glands of the Skin, and causes the old hair to fall off in due time make way for the new and imparts to it a fine and glossy appearance

THOMAS JONES, Farmer,

No 10 Ash st. ent.

CAUTION—The astonishing success of Dillow's Heave Cure for the last two years, in the United States, has induced several persons in Boston and Connecticut to and they even go so far as to counterfeit it and they even go so far as to deceive the public against it and endeavor thereby to palm off their nostrums as the only genuine article. We declare that '*Dillow's Heave Cure*' is the first article of the kind ever introduced in the United States, and we hereby offer the sum of *One Thousand Dollars* to any person, or persons who will prove to the contrary. Consequently all others must be imitations.

The Great Remedy for Gonorrhea

GLEET, Stricture, and all urinary complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union during the last 6 years. He only reason for introducing the Paste in this public manner is the conviction of the Doctor that there are thousands of afflicted sufferers that there are thousands of individuals complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms to the public that the practice of forty years that Paste has never, in one single instance failed in effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged entirely cured.

If the unfortunate instead of dragging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case the Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr PEIFER'S DOUGLASS, at his Office No 55 Union street Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted
